

**Case Finding/Surveillance Protocol for
Febrile Respiratory Illness
(Questionnaire)**

(i) Do you have new/ worse cough or shortness of breath?

___ if 'no', stop here (no further questions)

___ if 'yes', continue with next question

(ii) Are you feeling feverish*, or have you had shakes or chills in the last 24 hours?

___ if 'no', take temperature; if >38 C, continue with next question, otherwise stop (no further questions)

___ if yes, take temperature and continue with next questions.

*NOTE: Some people, such as the elderly and people, who are immunocompromised, may not develop a fever.

If the answer to both questions (i) and (ii) is "yes", or if the answer to question (i) is "yes" and the recorded temperature is >38 C, initiate droplet precautions, and notify Infection Prevention and Control

(iii) Is any of the following true?

___ Have you traveled within the last 10 days to Mexico? Or

___ Have you had contact in the last 10 days with a sick person who has traveled to Mexico?

For additional information please consult with your local public health unit

Infection Prevention and Control should notify public health by phone when: case has a positive travel history and/or there is a possible cluster/outbreak
